

How to use the policy?

1) General:

Attached, you will find a list of doctors and medical services contracted to Harel. Please make sure you use contracted providers in order to avoid out-of-pocket payment.

2) Hospital Emergency Rooms:

A new fracture, dislocation of a shoulder or elbow, an injury requiring stitching by means of sutures or other means of stitching, aspiration of a foreign object into the trachea, penetration of a foreign object into an eye, snake bite, transportation by ambulance to an emergency room from the street or another public space due to a sudden event, approval by the Insurer, the emergency ends in non-elective hospitalization. Thus, it is recommended to go to the emergency room only after obtaining a referral from a physician.
